Questions 71-73

Questions 71 through 73 refer to the following announcement.

Attention ladies and gentlemen, the train now arriving at platform 9 is the delayed 10:25 service to Bristol. The train was delayed by an hour due to a signals failure outside of London. It will now leave at 11:30. We apologise for any inconvenience caused to passengers. People taking connecting trains in Bristol should contact station staff when they arrive. The staff will arrange for alternative transport if their trains have already departed. The train does have fully stocked buffet car in which drinks and hot food are available. We hope you enjoy your journey and apologise again for the delay.

And in other news, in case you didn't feel it, there was an earthquake last night at 3:37am. The epicenter was in the largely uninhabited mountain region and there have been no reported casualties, although several buildings in the area were damaged and a footbridge collapsed. Lasting 94 seconds, it measured five on the Richter scale and could reportedly be felt as far away as the capital city over 200 kilometers away. If you were in the capital, you may have noticed tremors causing cups and plates to rattle, but no serious damage has been reported so far. This is the fifth minor earthquake to hit the country this year, and experts warn that this could be a sign of a larger one to come.

I'd like to take this opportunity to welcome you all to our offices, and say how much I look forward to working with you all over the coming months. Before we start your first induction session, I'd just like to give you a quick tour and show you where the different departments are located and introduce you to some of the key people here that you will need to know. At the end I'll also show you where the café is and then you can get something to eat and drink. If you follow me this way, you'll see our marketing department. We just hired five new marketing specialists, so like yourselves they are a relatively new team, and I'm sure that they will welcome you and help get the products you develop out to the people who want them.

OK, we're now in the Asian section of the Clothing Museum, and I'd like to point out behind me is a very fascinating exhibit on the history of Chinese dress. The museum has more than 200 silk Chinese qipao dresses, making it the largest such collection in Europe. You may well know that the qipao look that we know today was first developed in Shanghai in the 1920s. Interestingly though,

these are based on older much longer one-piece outfits that were worn by men and women, which you can see in the collection. After the 1940s, a lot of the designers of qipao moved to Hong Kong and Taiwan where the designs were further developed and became more practical to wear for working women.

Since then, the qipao has become more of a formal outfit worn on special occasions, but they are now worn by female staff of several different airlines, and you can see example uniforms in the collection. It's a look that really represents Chinese culture around the world, and they remain as popular as ever.

Now, please if I can ask you to look out of the right of the bus, you can see Hopgood Gallery that has just reopened. The gallery has been there for over 200 years, and has just been opened to the public after a three year redevelopment program when all the rooms and facilities have been modernized. The refurbishment includes a new glass roof over the original outdoor courtyard, which doubles the exhibition space. Currently, the space is being used for an exhibition of portraits of famous historical figures. In a moment we will park at the main entrance. You can get into the gallery for free using your rover pass. You will have two hours to look around, and then we will meet back at the entrance and go for lunch at a restaurant that is just 5 minutes from the gallery – they have \$10 buffet that I highly recommend.

I'm sorry, but I will not be able to take any more questions right now due to the late start of my presentation, but you are welcome to come and chat to me during our break for lunch. The late start was of course due to technical problems and I apologize once again for that. We must now move on to our next speaker, someone I am sure you all know because he is one of the leading figures in our industry. Jeremy Siew is here to talk about the latest developments at Sun Star industries that he thinks will keep them ahead of the fierce competition in the handheld technology field over the next two years.

OK, so you have decided to learn how to base jump. Good move – but I must keep reminding all of you that this is a high risk sport and that safety comes first at all times. You must always, always, take extreme care when preparing your parachute and other equipment. Always pack your own parachute. We lost a dear friend last year, Kyle Saito – a giant in the sport, when his chute failed to open last year on a cave jump in Peru. He was using a parachute he hadn't packed himself – so be warned.

Having said that, this is going to be the most amazing thing you have ever experienced, and tomorrow you're going to be making your first jump off Whitman's Cliff, one of the most popular and safest base jump sites in the country. It's 200 meters of pure excitement that you will never forget.

Hi everyone, I'm really happy to welcome you to the Sairee Eco Lodge Resort. We hope you enjoy a fantastic stay in our eco cabins, and have a great vacation that doesn't have an impact on the beautiful environment here.

Just a quick word about the cabins you'll be staying in – they are all made of local materials that can be used without damaging the forest in this area. Each cabin one has solar panels, so they are entirely self-sufficient in terms of hot water and lighting.

There is a café at the main entrance, and you can call up and have food and drinks delivered to your cabin if you wish. Just dial 8 on the phone in your cabin and you will get through to the kitchen. All the products we use in our kitchens are local and fair trade – that means we pay the farmers a fair price to produce the food. We also have a shop where you can buy necessities such as toiletries and snacks, and they will also do any laundry that you have – you'll find the rates are very reasonable.
